

POWER IS SURVIVAL

“Power isn’t just a convenience—it’s survival,” - Commissioner Lesley Briones

With the recently announced backup power mandate for nursing homes and assisted living facilities, Minuteman Power is reaching out to be part of the solution. Understanding the urgency of the need for backup power is one thing, but understanding how to approach the implementation for all the businesses and facilities affected is another. Minuteman Power applauds Harris County for taking the first step towards safety by updating their Fire Code, and we’re standing ready to help them take the next step.

Minuteman’s Line-Interactive and Online UPS (Uninterruptible Power Supplies) may be just what the Fire Chief ordered.
