

# TAA COMPLIANT PRODUCTS

Our TAA Compliant products meet the requirements of the Trade Agreements Act (TAA) making it easier for our partners to do business with government agencies. Compliant products and solutions are available through our Government Channel Partners.

**Encompass LCD**

*The Encompass Series offers two unique form factors and delivers comprehensive protection only offered by a true online UPS. By regenerating the incoming AC signal, through double conversion technology, an online UPS provides an impenetrable “electrical firewall,” providing the most fail-safe power protection available.*

## APPLICATIONS:

- Local Area Networks (LANs)
- Critical server and network cabinets
- Remote network closets
- Edge computing
- Distributed Antenna Systems (DAS)
- Government (Federal, State, and Local)
- Security systems
- Home Audio/Visual installations
- Highly sensitive equipment
- Hospitality markets
- Education (K-12 or Colleges and Universities)

## FEATURES:

- True online, double-conversion technology
- Flexible installation format: Rack/Tower
- 0.9 output power factor
- Cold Start capable
- Automatic internal bypass
- SNMP compatible (with optional card)
- Highly efficient, Economy Mode option
- Tool-less battery replacement design
- Full 3-year warranty (including batteries)

## Providing Power{ful} Solutions

For all your back-up power needs

*Minuteman Remote Power Management (RPM) devices are all TAA compliant, making them the ideal solution for network administrators to manage one or more locations. Connect and control from virtually anywhere with internet and your password.*
